

How to Download eBooks From the Homer Township Public Library

First, you'll need to get an Adobe ID (this will allow you to transfer the eBook from your computer to your eReader). Go to www.adobe.com to get an Adobe ID. Click 'sign in' on the right side, then click 'Create An Adobe Account.' You will use this ID in a few minutes (during step 2 below).

Go to www.homerlibrary.org. On the left side there is a column -- click 'eBooks.' At the bottom of this webpage, there is a link to access Omni Overdrive -- click the link.

On the Omni Overdrive page, click on the 'Quick Start Guide' on the left side. There are **3 steps** listed here to get you started.

Step 1 is to download the software onto your computer. There are two options listed. For eReaders, you'll download 'Adobe Digital Editions.' For phones, you'll download 'Overdrive Media Console.' Click on the appropriate option, and then click the brown 'Launch' button on the Adobe site and follow the instructions to download the software.

Step 2 is to activate the software. This should begin automatically after you download it. During this activation setup, you will be asked if you want to 'authorize' your computer. You will need to authorize it in order to transfer eBooks onto your eReader, so enter your Adobe ID and password to begin the authorization.

Step 3 is to check out books. Scroll up to the top of the Omni Overdrive site & choose 'Sign In' where you'll enter the library name & your library card number. Click on 'Omni Home' at the top, which will bring up the main page that has the catalog.

When you find the book you want, choose 'add to cart' (if it says 'place hold' you can add it to your hold list). Once you check out, you will click on a 'Download' button. This will download the book onto your computer into the 'Adobe Digital Editions' program (FYI: the ADE program will be on your desktop from now on).

You may check out three eBooks at a time. Please note that you can change the length of the check out period when you are checking out. There is other helpful information under 'Check Out Assistance' on the left side of the Omni Overdrive main page.

To transfer eBooks from your computer to your eReader using Adobe Digital Editions, attach the usb cord from your eReader to your computer. Then complete the following steps:

1. Open Adobe Digital Editions.
2. Select the 'Library View' icon (in the upper left corner). The Adobe Digital Editions library is displayed.
3. Click on the Adobe eBook you want to transfer.
4. Drag the Adobe eBook to the eBook device icon in the left pane of Adobe Digital Editions. The 'Copy Documents' dialog box is displayed and the title is transferred. When transfer is complete the 'Copy Documents' dialog box closes. Disconnect the eBook device and enjoy the eBook on-the-go.
